Matthew Everett Teixeira

San Diego, CA | mattheweteixeira@gmail.com | (619) 727-8658 | linkedin.com/in/mattheweteixeira | matthewteixeira.com

Professional Summary

MIS student at San Diego State (May 2027) who builds and ships products by directing and checking AI tools; founded Isle Know, a live 3D study game. Seeking product, program, and AI enablement roles.

Education

San Diego State University, Fowler College of Business — San Diego, CA
B.S. Management Information Systems — *Expected May 2027*
Honors: Dean's List (3 semesters); highlighted by Handshake's President among 6,000+ AI Skills Studio projects
Relevant Coursework: Networks & Data Communications, BI & Analytics, Statistical Analysis, Project Management

Experience

Founder — Oct 2026 – Present
Isle Know | isleknow.com — *San Diego, CA*

- Solo-founded isleknow.com, a 3D study game, owning product, QA, security, pricing, and marketing; 161 versions in 10 days.
- Directed and checked AI tools (Claude Code builds; Cursor and Grok review) behind a release gate of 43 automated tests (68 checks) and a live check after every deploy; verified each of ~60 review findings against the code before fixing.
- Recruited ~20 student beta testers in week one; fixed a tester's laptop layout bug at 7 screen sizes the same day.
- Cut the answers needed to finish a build by 59% for mastered sets by simulating 64 player runs and fixing a reward rule.
- Shipped Google sign-in and cloud saves for users 13+; closed two code-injection holes before any user was affected.

Accounts Payable Analyst — Mar 2024 – Present
Kimball, Tirey & St. John LLP — *San Diego, CA*

- Code and route 50–75 invoices weekly to the correct GL accounts, matters, and cost centers for on-time approval.
- Process ~$5M a year in check runs and ACH payments, and reconcile ~15 vendor statements with vendors and internal teams.

Projects

VitaAI: Agentic AI Clinical Documentation (System Design) — Jan 2026 – May 2026
SDSU MIS 306, 5-person team project

- Designed the backend of an agentic AI clinical documentation system across 18 AWS services as backend lead analyst.
- Wrote all 20 requirements and co-designed the HIPAA security tier (Cognito MFA, IAM, KMS, WAF, CloudTrail).
- Presented the 77-page design with my team to 300 attendees at the SDSU MIS Showcase.

Lab Copilot: Voice AI Lab Assistant (Hackathon) — Nov 2026
SDxSDSU Voice Agent Hackathon (ElevenLabs + Daytona), team of 3 | github.com/PanduhBuilds/lab-copilot

- Led product and build: a voice lab partner that checks each spoken meter reading in under a second; demoed to industry judges.

I'm Dinking!: Live Court Check-In App — Oct 2026 – Present
Personal Project, Handshake AI Skills Studio | imdinking.ai.studio

- Built a React/TypeScript check-in app in Google AI Studio that ~15 players use daily (live roster, queue, win streaks).

Three to Zero: Multiplayer Web Game — Sep 2026 – Present
Personal Project, Handshake AI Skills Studio | threetozero.netlify.app

- Built a co-op bomb-defusal game where each player loses one sense (sight, hearing, or speech); 132 automated tests.

Skills & Interests

AI Tools: Claude Code, Cursor, Grok, ChatGPT, Gemini (Google AI Studio), ElevenLabs Agents, Daytona; custom GPTs
Technical: SQL, Python, R; JavaScript, TypeScript, React (working knowledge); Supabase, Firestore, Cloudflare, GitHub
Cloud & Security: AWS architecture design (Lambda, DynamoDB, S3, Bedrock); Cognito, IAM, KMS, WAF, CloudTrail
Product: Requirements, user research, playtesting, release testing, pricing research, DFDs and use cases; Excel, Lucidchart
Interests: Scratch golfer; collegiate pickleball (5.0); competitive Fortnite (Unreal in Ranked); the go-to friend for AI questions
